

Brandon Wendell

Full-Stack Developer

brandon.c.wendell@gmail.com — (440) 925-1269 — Lakewood, Ohio — [linkedin.com/in/brandon-wendell/](https://www.linkedin.com/in/brandon-wendell/) — <https://github.com/brandoncw22>

Education

Cleveland State University – Aug 2022 to May 2026

Computer Science - Bachelor of Science

3.2 GPA

Midview High School – August 2018 to May 2022

High School Diploma

3.7 GPA

Work Experience

Web Development Instructor – Tech Corps – May 2025 to July 2025

- Taught high schoolers the fundamentals of web development, including HTML, CSS, and JavaScript

Tech Instructor – Tech Corps – May 2024 to August 2024

- Taught kids coding fundamentals through game development, fostering problem-solving skills and creativity while guiding them in building interactive projects.

Valet Attendant – VIP Valet – March 2024 to Present

- Greet guests, safely park and retrieve vehicles, and provide excellent customer service in a fast-paced environment.

Technical Skills

- **Programming Languages:** Java, Python, C, JavaScript
- **Web Development:** HTML, CSS, SQLite, React, NodeJS, ExpressJS
- **Tools and IDEs:** Visual Studio Code, MS SQL Server, IntelliJ IDEA
- **DevOps/Hosting:** VPS setup (Ubuntu), NGINX, domain + SSL configuration
- **Version Control:** Github

Projects

Portfolio Website (ReactJS, Node + Express, SQLite3)

- Built a full-stack portfolio to showcase personal projects, experience, and skills
- Implemented a gallery of project cards that open into full-screen modals with writeups and image carousels (React-based gallery components)
- Created a backend API to server project data to dynamic React components
- Integrated a contact form using Nodemailer for direct messaging; admin uploads handled with Multer
- Hosted on a personal VPS with NGINX reverse proxy and domain-based routing (SSL-secured).

Blog Website (ReactJS, NodeJS, ExpressJS, SQLite3)

- Displayed posts using flexbox in reverse column order; newest content appears at the top.
- Each post can be clicked to open a modal-style overlay showing its content and uploaded image.

- Built full admin login system with credential validation against a SQLite3 database, plus “Remember Me” cookie support with 7-day expiry.
- Admin users can delete posts (with confirmation) or create new posts via a submission form with image upload, using Multer on the backend.
- Posts include date metadata and are dynamically rendered based on database entries.
- Contact form via Nodemailer to send user messages directly to the admin email.

Todo Website (HTML, CSS, JavaScript)

- Built a feature-rich task management tool using only core web technologies as a foundational learning project
- Designed form system to capture task title, description, due date/time, priority, and multiple subtasks, storing all input as objects in an in-memory array.
- Each task receives a unique ID and is saved to localStorage for session persistence; rehydrated and re-rendered on page load.
- Implemented dynamic rendering system that builds and attaches DOM elements for each task card and subtask list, including conditional styles and logic for completion status and priority-based color coding.
- Enabled task filtering via checkbox toggle (e.g., hide/show completed), with tasks updated live based on object completed flags.
- Built logic to toggle task completion, unmark completed tasks, and delete tasks with immediate UI and state updates.

Tic-Tac-Toe Game (Java)

- Developed a console-based Tic-Tac-Toe game with a friend vs. AI mode, implementing matrix logic and algorithmic strategies from linear algebra to optimize gameplay.
- Designed an AI opponent with basic decision-making and win-checking mechanics.

Extracurricular Activities

Boy Scouts of America – 2008 to 2021

- Senior Patrol Leader – Led and organized troop activities, including campouts, training sessions, and community service events.
- Developed leadership, teamwork, and problem-solving skills through hands-on outdoor experiences and troop management.
- Coordinated schedules, delegated responsibilities, and mentored younger scouts to foster skill development and personal growth.
